## TO END THE STRIFE.

**President Castro Gives Minister Bowen Full Charge.**

**CASE NOW UP TO THE ALLIES.**

**Uncle Sam Willing to Assume the Task if the Powers Accept.**

**FRANCE ALSO ENTERS THE FIELD.**

**Serves Notice That the Pre-eminence of Her Claims Must Be Recognized in Any Settlement Reached. England and Germany Still Deliberating the Proposal For Arbitration. Dewey's Fleet.**

Washington, Dec. 18.—President Castro has clothed Minister Bowen with full powers to effect a settlement with Great Britain, Germany and Italy. Mr. Bowen simply awaits the consent of the state department to assume this task, assuming that he shall undertake this work. It is believed that the critical phase of the Venezuelan controversy is passed. Whether the consent of these governments can be obtained, will, it is believed here, depend entirely upon the sufficiency of any guarantee that can be given for the faithful discharge by President Castro of any obligations he may assume as the result of Mr. Bowen's efforts. The allies feel that they must be assured against the consequences of another revolution and the repudiation by the president, who will follow Castro, of his undertakings.

The effort to induce the United States government to act as guarantor, it is safe to say, will not succeed and it is beginning to appear that there is likely to be a mixed commission appointed to receive all Venezuelan customs and setting apart a certain portion for the maintenance of the Venezuelan government, disburse the remainder among the powers until their obligations are met.

The government of France has now entered the field as an active party in the trouble. The French government has, through its ambassadors and charges and ministers, served notice upon the governments of Great Britain, Germany and Italy, and in the way of information has told Secretary Hay that any provision made for the settlement of the claims against Venezuela must recognize the pre-eminence of the French claims. France received assurances from the other governments named that any arrangements made would provide for the security of the French interests in the Venezuelan customs.

### Dewey's Fleet.

The navy department contributed an important development in the Venezuelan situation in the form of a cablegram from Admiral Dewey announcing the proposed itinerary of the vessels of his fleet during the Christmas holidays. It is clearly seen that the plan provides for no undue concentration of ships along the Venezuelan coast and so prudently and advisedly have its details been drawn up that Secretary Moody cabled the admiral the department's approval of his orders. This will set at rest the rumors that the United States contemplates complicating the Venezuelan situation by dispatching the large naval force to La Guayra as an offset to the allied fleet.

Admiral Dewey's cablegram, dated San Juan, Dec. 14, is to this effect: "Proposed itinerary of vessels for Christmas holidays: Kearsarge, Alabama, Massachusetts, Iowa, Scorpion, Trinidad, Illinois, Indiana, Hist to St. Thomas, the Texas to Pointe-a-Petrie; Chicago, Newark, Eagle to Curacao; San Francisco, Albany, Wasp to Mayaguez; Cincinnati, Atlanta, Prairie, tugs and torpedo boats to San Juan; Culgoa to Magayez and San Juan; Olympia, Nashville and Machias to St. Kitts; Detroit to Antigua; Mayflower and Vixen to Porto Rican waters and vicinity, and Dolphin to Antigua and vicinity.

### AN APOLOGY

**Expected From Venezuela For Insults to the German Diplomats.**  
Berlin, Dec. 18.—Aside from the financial claims mentioned in her ultimatum, Germany expects some form of apology from Venezuela for the diplomatic insults which the foreign office says are more serious and more gross than those of which Great Britain claims. The foreign office officials point out that Premier Balfour's re-

mark in the house of commons about Germany having other than financial claims must be understood as applying to diplomatic reparations for the insults and not to a material indemnity, like money or territory.

The foreign office is again calling attention to the suspicions in the United States lest Germany effect a landing in Venezuela. It says a refutation of such suspicions ought to be perceived in the slender forces at the disposition of Germany. There are scarcely 300 men who could be spared from the squadron, not a sufficient number to take La Guayra let alone for an expedition into the interior. It is not settled whether the notification of the commencement of the blockade will be made public in Berlin and London simultaneously or take the form of a communication from the two commanders of the squadrons to the Venezuelan authorities. The publication will apparently be delayed a day or two.

The foreign officials say the reply to Venezuela's arbitration proposal has not yet been sent. The foreign office is still exchanging views on the subject with London. Although the foreign office does not give the least hint of the character of Germany's reply, it seems certain that arbitration will not be accepted, though the refusal may be accompanied by fresh suggestions.

The Cologne Gazette, in an evidently inspired statement, endeavors to allay the uneasiness regarding Germany's actions in Venezuela, which, according to practically all the special dispatches coming from America, prevails in the United States. "There are no facts," says the statement, "to support distrust of Germany expressed in many quarters. The government of the United States knows well that Germany as little thinks of seizing Venezuelan territory as of planting her flag on the mountains of the moon. Even if we could annex Venezuela without a protest from the United States, we would forego so doing, as complication with the United States would be bound to follow. Germany does not think of waging a land war. She believes she can force her just demands by means of a blockade. The real cause of her action was the robbery and plunder in the guise of war contributions to which our countrymen were exposed."

### PARLIAMENT PROROGUED.

**King Edward in His Speech Refers to the Venezuelan Muddle.**

London, Dec. 18.—Parliament was prorogued by royal commission. Only a score of members of the house of commons were present when Black Rod summoned the lower house to the house of lords to hear the king's speech, which was an unusually lengthy recapitulation of public events since January, including the action taken in connection with Venezuela, regarding which the speech said:

"I regret that the constant complaints which my government found it necessary to address to the government of Venezuela in regard to the unjustifiable and arbitrary acts against British subjects and property during the last two years have been persistently disregarded and that it has become necessary for my government, acting in concert with that of his imperial majesty, the German emperor, which has also serious cause of complaint against the republic, to insist on measures of remedies."

The speech refers to the conclusion of the South African war and adds: "There seems to be every reason to hope that material prosperity, greater than any the government and the Orange River colonies have yet experienced will continue to visit these regions and all sections of the population may live together in friendship for each other and loyalty to the crown."

Other topics touched upon were the expedition against the Mad Mullah, and the co-operation of Italy therein, the acceptance by Chile and Argentina of the British boundary award, the Brussels sugar convention and the alliance between Great Britain and Japan, which the king believes will be of advantage to both countries and contribute to the maintenance of general peace in the extreme east.

Parliament was prorogued until Feb. 17.

### CASTRO'S DENIAL.

**Allies' Ultimatum Was Not Accepted. Negotiations For Arbitration.**

Caracas, Dec. 18.—A press representative saw President Castro and questioned him in regard to the report published in the United States that the Anglo-German ultimatum had been accepted by Venezuela. The president became furious with rage and said there was no truth in the report. He added: "The acceptance of an ultimatum cannot be coupled with arbitration." When asked if it was true that Venezuela was taking diplomatic steps to arrange for arbitration and that arrangements in this

connection were well advanced, President Castro said: "The government of Venezuela does not propose to determine on any steps while the proposition for arbitration that the legation of the United States was charged to present to Great Britain and Germany remains unchanged."

## NONUNIONISTS CALLED

**To Show That Violence Was Done During Anthracite Suspension.**

**EFFORT MADE TO INVOLVE STRIKERS.**

**A Woman Whose Home Was Destroyed by Fire and a Couple Burned in Effigy—Other Testimony Offered.**

Seranton, Pa., Dec. 18.—The attorneys for the non-union men resumed their calling of witnesses before the coal strike commission, to show that violence was committed during the progress of the strike. As soon as the hearing opened the wage statements of the Delaware, Lackawanna and Western and Philadelphia and Reading Coal and Iron companies were filed with the commission.

The first witness called said a member of the miners' union threatened to kill him if he did not stop working, and finally did shoot at him. The offender was sent to prison. The next three witnesses were John Hoffman, his son, both of whom were working at the Upper Lehigh colliery, assisting in putting in a new boiler, and the son's wife. They told how a crowd of strikers came at midnight to harm the son, who had fled five miles to another town, and how the crowd smashed the furniture and attempted to burn the house.

The next witness related the story of himself and wife being hung in effigy in the streets of Nanticoke, the effigy of the wife being of a character most offensive. Mrs. Kate McNamara of Parsons, the mother of four small children, whose husband was in the mines and could not come home for fear of bodily harm, testified that her home was destroyed by fire at night and she and her children were rescued with difficulty. Counsel for the miners called the commission's attention to the fact that the fire had not been connected with the strikers and objected to the other side bringing in evidence of alleged violence by strikers when they cannot prove it.

Chairman Gray said that while the evidence did not directly connect the strikers with the fire, the inference was that the fire was most probably of incendiary origin. Other witnesses were called to prove they were boycotted and otherwise intimidated. Counsel for the miners frequently objected to unsupported testimony being presented.

### BY TROOPS.

**Nord Proclaimed President of Haiti. Now in the Palace.**

Port-Au-Prince, Haiti, Dec. 18.—General Nord having been proclaimed president of Haiti by the army, took possession of National palace.

### Volunteers For Venezuela.

New York, Dec. 18.—Among the passengers who will start for Venezuela on the steamer Maracaibo on Saturday, will be Nicholas Hernandez, 22, son of General Jose Maria Hernandez, "El Mocho." Young Hernandez is a compositor at present employed in Danbury, Conn. He telegraphed a friend that he would go to Caracas to enlist in his father's command. In addition to the number of personal offers from United States citizens with the Venezuelan consulate to enlist in Castro's army, the consul general has received 46 letters, writers wishing to serve. Among the senders of these communications are ex-army officers and discharged soldiers.

### Iron Market.

Cleveland, Dec. 18.—The Iron Trade Review says current developments in the iron market are of little significance. The official announcement of the absorption of the new Union Steel company with its Donora and Sharon plants, by the United States Steel corporation, is the most important piece of construction news since the corporation itself was formed. Their acquirement strengthens the steel corporation in its hold upon the lighter lines of production, and in the wire nail field gives it a practical monopoly, apart from the Alabama and Colorado concerns which are largely sectional.

### Christmas Money.

New York, Dec. 18.—The last steamer from New York which will reach the other side of the Atlantic before Christmas, the St. Paul of the American line, has sailed with \$460,615 in money orders payable in 15 countries

### COAL FAMINE.

**Anthracite Operators Hold Out No Hope For Relief.**

Philadelphia, Dec. 18.—Officials of the Reading railroad hold out no hope for relief in the anthracite coal stringency this winter, despite the efforts of the company to mine and ship to its full capacity. "Under normal conditions," said one of the officials, "the anthracite production is never equal to the demand during the winter, and the Reading and other anthracite companies have been obliged to draw upon the stock at various stages to help out the demands of the trade. This year there is not a pound of coal at any of these storage points and consumers are dependent entirely upon the daily output of the mines. The big dealers in New England, who usually have in stock at this season of the year from 50,000 to 100,000 tons, are bare of coal and dependent entirely upon what it being shipped to them by the various companies. Practically all of the Reading company's collieries are in operation.

### Lorenz's Latest Operation.

New York, Dec. 18.—Dr. Lorenz has for the first time since his arrival in New York operated on a club foot. The patient was a 4-year-old girl. Dr. Lorenz knuckled and twisted the crippled foot until it was as soft and pliable as a piece of putty. Then he deftly moulded it into its proper form, and announced that the operation was completed, and a plaster cast was fitted on the foot. The doctor said that the child should be allowed to use her foot as much as she could after four or five days and that it would be necessary to keep the cast on for six or seven months, after which she could walk.

### Why Castro Yielded.

Caracas, Dec. 18.—The solution to the dilemma came through a meeting of all the richest and most influential citizens of Caracas, including merchants, bankers and plantation owners. They have pledged themselves to find a plan which will enable the country to discharge its obligations. Their program was submitted to President Castro, who requested it in writing, and everybody cognizant of the negotiations is satisfied from his attitude that he has determined that this is the best plan for the country.

### Italy's Instructions.

Rome, Dec. 18.—Instructions have been sent to Signor De Riva, the Italian minister to Venezuela, who is on board the Italian cruiser Giovanni Bausan at La Guayra, to be guided by circumstances, bearing in mind the agreement with Germany and Great Britain and the necessity for uniformity of action. The Italian government considers that the Giovanni Bausan, Elba and Agordat are sufficient to co-operate in blockade.

### Pretender Gaining Ground.

London, Dec. 18.—A dispatch from Fez, by way of London, says that the pretender to the throne has complete possession of Tessa and the neighboring districts. The pretender has appointed viziers and other officials and has set up a court with every symbol of royalty. The tribes east of Fez almost without exception acknowledge the pretender as the sultan. Very heavy rains impede the progress of the imperial troops.

### Duel to Follow.

Madrid, Dec. 18.—General Bourbon y De Castellvi, a cousin of King Alfonso, was arrested in a gambling club. He was arraigned before the captain general and subsequently released. The general has challenged the prefect, who is now responsible for the energetic attempts made to suppress club gambling.

## ASKS HAY TO PRODUCE

**House Calls For the Correspondence in the Venezuelan Dispute.**

**DE ARMOND'S RESOLUTION SHELVED.**

**Philippine Tariff Bill the Subject of Debate—Gold Standard Suggested For the Islands—Congressional Proceedings.**

Washington, Dec. 18.—In the absence of Speaker Henderson, who attended the wedding of Representative Blackburn of North Carolina, Mr. Dazell (Pa.) presided over the deliberations of the house. Immediately after the reading of the journal, Mr. Hitt (Ills.), from the committee on foreign affairs, reported back the De Armond and McCall resolutions calling upon the secretary of state for the facts with relation to the claims of Great Britain and Germany against Venezuela, and generally for a statement of the diplomatic situation with reference to the Monroe doctrine.

The report recommended that the DeArmond resolution lie upon the table and that the McCall resolution, which called for the correspondence in the case, be adopted. Mr. Richardson (Tenn.) asked why Italy and other European countries which were figuring in the controversy, were not named in the resolution. Mr. Hitt replied that he was advised that the correspondence was similar in each case. The recommendations of the committee were agreed to and the McCall resolution was adopted.

The house then went into committee of the whole and took up the consideration of the bill reported by the ways and means committee to reduce the duties on articles the growth and product of the Philippine archipelago from 75 per cent of the Dingley rates (the present rate) to 25 per cent. Mr. Payne explained the bill. The Philippine government, he said, needed revenue and for that reason it was impracticable to totally abolish the duties.

Mr. Richardson (Tenn.) said he believed any duty was unjust, unconstitutional and un-American, but he favored any reduction. He gave notice that he would vote to recommit the bill with instructions to report it back amended so as to provide for free trade with the islands.

Mr. McClelland (N.Y.) recalled the fact that General Wright, vice governor of the Philippines, in a hearing before the ways and means committee, expressed the opinion that the free importation of Philippine products would best subserve the interests of the islands.

Mr. Swanson (Va.) also argued in favor of free trade with the Philippines. The bill was further discussed by Mr. DeArmond (Mo.), Mr. Ball (Texas.), Mr. Crumpacker (Ind.), and Mr. Green (Pa.) All the amendments were voted down in committee of the whole.

### General Staff Corps in Army.

Washington, Dec. 18.—The house military affairs committee authorized a favorable report on the bill drafted by the war department creating a general staff corps in the army, but recommended two important amendments, one of which eliminates the provision in the bill for the discontinuance of the inspector general's department, thus leaving it as a bureau of the war department. The other amendment prevents the giving a brigadier general who might be detailed to the staff the rank and pay of a lieutenant general or major general, as contemplated in the bill.

### Currency For Philippines.

Washington, Dec. 18.—The senate committee on the Philippines agreed upon a bill for the establishment of a currency for the Philippines, which is the joint production of Senators Lodge and Allison. The bill makes the gold peso of 12 9-10 grains the unit of value in the islands and makes the gold coins of the United States legal tender for all debts.

### Vessels Released.

Detroit, Dec. 18.—The steamer S. K. Martin and the schooner Charles Spademan of Marine City, which have been fast in the ice in Lake Erie, off Bar Point, were released and brought into the river by tugs Home Rule and Columbin. They are now lying at Amherstburg waiting for the third vessel of the fleet, the schooner Hanscomb, which with an unknown schooner is still fast. The tugs are working to release them.

### French Duellists Victorious.

Nice, Dec. 18.—The duels following the bombastic challenge of the Italian fencing champions, Vega and Pessina, to the French champions Morignac and Hirschoffer, were fought here and resulted in both Italians being wounded. Their wounds are not dangerous.

### **ENTITLED TO MANDAMUS.**

**Auditor's Agent Watson Scores Important Point in Big Tax Suit Against the C. and O.**

The Court of Appeals, in an opinion Wednesday by the Chief Justice, reversed the judgment of the Mason Circuit Court in the case of the Commonwealth against C. D. Newell, Judge.

The County Court of Mason County refused to take jurisdiction of a complaint filed by State Auditor's Agent Watson, the purpose of which was to subject certain property of the Chesapeake and Ohio Railway Company to taxation.

A writ of mandamus was asked, and to this petition the court below sustained a demurrer. The Appellate Court holds that the agent was entitled to a writ of mandamus. Judges Paynter, Hobson and Burham filed a dissenting opinion.

The opinion is an important one, as Mr. Watson is seeking to recover a large amount of back taxes he alleges are due from the railroad company.

### **THE FUTURE OF OIL.**

**Kentucky Now One of the States Looked to For the Supply—Pennsylvania's Wells Failing.**

[Enquirer.]

Messrs. John H. Compton, Boston, Mass., and Daniel P. Williams, of Providence, R. I., the former President and the latter Secretary and Treasurer of the Inter-State Petroleum Company, stopped over at the Grand en route to the oil fields of Kentucky and Tennessee, where they have 25,000 acres of land leased.

"The future for oil," said Mr. Compton, "seems to be in Ohio, Indiana, Kentucky and Tennessee and the trend of exploration and development is coming that way rapidly. I read in one of the best oil journals in the country a few days ago that the oil supply in Pennsylvania is diminishing at the astonishing rate of 1,000,000 gallons a day and the West Virginia field is falling off. I notice that the oil journals of the East that gave the Kentucky fields no notice up to a short time ago are now devoting columns to the discoveries of that State, influenced, no doubt, by the investment of \$300,000 in one section of that State. The Standard has leases of 300,000 acres which is costing them a great amount of money, much of it in lands not yet tested."

If you want to purchase the purest and best goods on earth go to G. W. Rogers & Co., 127 Market street, where you will find old Bourbon and rye whiskey, apple and peach brandy, California brandy, malt gin, California port, sherry and Maderia, K. I. sweet Catawba and dry Catawba wines &c. We guarantee all of our goods to be strictly pure.

The village of Collinwood, Ohio, a week ago voted against permitting the sale of liquor within its boundaries. As a result the Lake Shore Railroad Company will spend \$1,000,000 in new shops additional to extensive buildings already erected. Had the village voted for the sale of liquor the railroad officials say this extra sum of money would have been withheld.

All railroads in Kentucky show a steady, healthful increase in earnings. The total gross receipts for the year ending June 30, 1902, were \$26,573,427. Total operating expenses, \$18,052,390. Total net earnings, \$8,521,037. The average gross receipts per mile were \$8,647. The average operating expenses per mile were \$5,874. The average net receipts per mile were \$2,773.

The meeting at Hebron Church, near Fern Leaf, closed last Sunday night. It continued two weeks. There were twenty or thirty conversions and fourteen additions. The last night was a memorable service. There were more than twenty at the altar of prayer, ten conversions and seven additions. At the close of this service nine were baptized and fourteen received into the church. A weekly prayer meeting will be held hereafter on Thursday nights. The pastor Rev. J. J. Dickey was assisted by Rev. H. A. Pollitt, of Germantown, who did the preaching, and Rev. Edward Allen, the singing evangelist. Miss Jennie Tucker of Germantown presided at the organ. Many family altars have been erected, many lives touched and the cause of God greatly advanced.

### **BOARD AGAINST THE C. AND O.**

**The Appellate Court Says This Case Should Have Been Given to the Jury.**

Brief mention has been made of the decision of the Court of Appeals reversing the above case taken up from the Mason Circuit Court. The opinion of the Appellate Court was rendered by Judge Hobson, who says:

Appellant was a laborer in the service of appellee, working under a foreman engaged in propping up a track over a culvert. Appellant under the direction of the foreman had dug the dirt out between the top of the culvert and the track for the purpose of putting in a prop which would rest on the culvert. The space was only about three feet in length and appellant was required to sit down and work. The train was nearly due and the foreman was hurrying the work. While appellant was in the sitting position one of the men that was lowering the prop, which was a heavy timber, without any warning to appellant, let it slip from his hands and it fell and struck appellant on the leg, inflicting severe and painful injuries, for which he instituted this action for damages. At the conclusion of the evidence for appellant the court gave to the jury a peremptory instruction to find for appellee.

On appeal, held, that the court erred in giving the peremptory instruction. On a motion for a peremptory instruction the court must accept as true the evidence of the plaintiff, and if from it by a reasonable inference there is an evidence of actionable negligence the case must be submitted to the jury. Appellant was not guilty of contributory negligence. As the foreman and appellant were engaged in the same service he cannot recover against the company in an action like this for personal injury resulting in death except for the gross negligence of the foreman, but on the facts shown there was sufficient evidence of gross negligence to take the case to the jury.

A. E. Cole & Son for appellant; W. H. Wadsworth for appellee.

## THE BEE HIVE

Did you see "The Stroller." A very good show—we made it so. The leading lady was happy—we made her so. She was looking for a certain style lace in every town from New Orleans to Maysville, so Miss Sylva said, so she ventured to inquire if we had it. The show was good—Miss Sylva was happy. The opera house had a good crowd—but the Bee Hive had a larger one, because the people all know what Miss Sylva just found out that we have the best store between Pittsburg and Cincinnati, and best all the year—must be best at Christmas.

### LAST HOURS

Of the Smith & Nixon Piano Co.  
Sale is Close at Hand.  
Sale Will Close in  
a Few Days.

As the general public will not be attracted by extravagant statements, we will leave the blowing and bluffing for others to do by offering high grade pianos at prices that defy competition and terms to suit all classes of customers. This tells the tale at this time and is bringing us a good class of patrons daily. This is a hurry-up time to buy a piano, and you will have to move up and act quickly if you are a piano buyer and want a bargain, as this sale is for a short time only.

A fine Valley Gem Square Piano will go at a sacrifice. A great bargain in a High-top Organ as good as new. You don't have to pay cash. We will trust you.

Remember the place—Second street, next door to Omar Dodson, in room formerly occupied by John I. Winter.

### HANDSOME SUM COLLECTED.

Auditor's Agent Watson Effects a Settlement With the Two National Banks of Maysville For Back Taxes.

The State National Bank and First National Bank of this city Thursday settled with Auditor's Agent Watson and State Revenue Agent Albritton for county taxes for the years 1893, '94, '95, '96, '99, and for the State taxes for 1899 also.

The total amount due from the State National was \$3,079.44.

The bank, however, was entitled to a rebate for 1899 taxes of \$243.60, under the terms of the Hewitt law, thus leaving the net amount collected from the State National of \$2,835.84. The bank is also entitled to an additional rebate at Frankfort of \$1,219.89 as a result of extra payments to the State under the Hewitt law, which sum of \$1,219.89 is to be applied on their future State taxes.

The total amount due from the First National was \$2,666.19, less State taxes for 1899 of \$314.31 under the terms of the Hewitt law, thus leaving the net amount paid by this bank of \$2,351.88. The bank is also entitled to an additional rebate of \$1,196.72, as a result of extra payments under the Hewitt law, which sum of \$1,196.72 is to be applied on their future State taxes.

The net amount received by the county under the above settlements is \$4,230.12. Other national banks in the State have recently effected a like settlement for back taxes.

### ELK'S MINSTRELS.

Splendid Entertainment and Handsome Sum Realized For the Poor of Maysville.

The Elk's Minstrels attracted a large audience to the opera house last evening, and the entertainment was a highly creditable one to this popular organization. It was enjoyable throughout.

Maysville talent has a reputation for furnishing high class entertainments, and this reputation was fully sustained last evening. The Elks were kindly assisted by Flemingsburg's male quartette, whose singing was of a high order and added much to the enjoyment of the evening.

The net proceeds amounted to \$125. The Elks will supplement this sum by an equal amount from the lodge treasury, making a handsome sum they will expend in furnishing Christmas cheer to the homes of Maysville's worthy poor.

Dolls and toys at O'Keefe's.

Rev. R. L. Cartwright, of Dover, has received a call from a church at Milton, Oregon, and with his mother will leave for that place soon after the first of the year.

It is stated that the Continental Tobacco Company will manufacture 25,000,000 pounds of tobacco this year in Louisville. This is 7,000,000 pounds more than was made last year. Mr. R. K. Smith, the general manager, thinks the output for next year will amount to 30,000,000.

### BUY CANDIES

For the little ones. Santa Claus' visit would lose much of its importance should the sweetmeats be left off his bill of fare. But don't buy the cheap stuff, whose only little is a pretty name. Pure sugar costs more than in little is a pretty name. Our confections are invariably of the first quality. ### NEW YORK LIFE VS. WEAVER.

Opinion of the Appellate Court Affirming the Above Case Taken Up From This County.

In affirming the above case the Appellate Court says:

Appellant issued a policy of life insurance on the life of W. for \$10,000. After her death suit was brought on the policy by the beneficiaries, and after the service of the summons appellant paid the amount of the policy. Afterward appellant instituted this action against the beneficiaries to recover the amount paid, charging that the examining physician and the insured entered into a fraudulent and corrupt collusion to defraud the company; that with this intent the insured made many false and fraudulent statements as to the condition of her health, and that the physician made false and fraudulent statements in his medical report as to the physical condition of the insured, upon the faith of which the policy was issued. Appellant does not allege that it did not know of the fraud before the payment of the money.

Held—That appellant is not entitled to the relief sought. A party who has been induced to enter into a contract by fraud may exercise the right of rescission within a reasonable time after the discovery. If the policy was obtained by fraud a court of chancery would have canceled it, notwithstanding the incontestable clause therein, if the suit for a rescission had been brought within a reasonable time after its issuance during the life time of the insured, upon the tender back of the premiums received by the company. But in this case appellant, not only failed to take any steps looking to a repudiation of the contract during the life time of the insured, but when sued upon the contract, after her death, confessed liability by the payment of the principal, interest and cost.

A. E. Cole & Son for appellant; E. L. Worthington, Thomas R. Phister for appellee.

Armored Concrete Less Expensive Than Steel.

[Western Architect.]

There is no longer any doubts in regard to the value of this, the newest element of construction. One factor in its favor is its economy. This was very forcibly illustrated in the construction of the bridge of Chatterault, France. It is built entirely of armored concrete, and consists of three segmental spans. The center span of 170 feet has a rise of sixteen feet, the side spans measure 132 feet, with a rise of fifteen feet. It is sixteen feet wide within parapets, and has two footways, each five feet wide. The weight of roadway is transferred to the arches by small columns forming the vertical members of the spandrels. The entire cost of the work was \$35,000. The estimate of a steel bridge, fulfilling the same conditions, was \$50,000.

### A Word to Women.

Any sick woman is invited to consult by letter with Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. In an active practice of more than thirty years, assisted by a staff of nearly a score of associate physicians, Dr. Pierce has treated and cured over half a million women. All diseases peculiar to women are treated with success. This consultation by letter is absolutely free. Every letter is treated as strictly private and sacredly confidential. Answers are mailed promptly giving the best of medical advice. All answers are sent in plain envelopes bearing on them no printing of any kind. Write without fear and without fee to Dr. R. V. Pierce, Buffalo, N. Y.
